PRESENTATION

Founded in 2020, Kamioun is a B2B e-commerce platform digitizing the daily operations of small shops in Tunisia. Our mission is to empower small shops by letting them take back control of their business.

The activities and strengths of your Startup

Through our e-commerce platform we provide retailer with:

- **A one stop shop:** Kamioun houses 650+ products, in more than 10 categories enabling retailers to purchase stock without the hassle of facing numerous suppliers.
- **Convenience:** Retailers are able to pick delivery dates that are suitable for them including receiving their order within 24 hours.
- **Competitively priced products:** Due to our business model that is rooted in transparency, we are able to sell goods at affordable pricing with minimal volatility.
- **Efficiency:** Retailers can order for their inventory at any time, and any location from their mobile phone, giving them time to make better stocking decisions and ultimately leading to better use of their working capital.
